Welcome to Mantras

About Us

Established on November 1st, 2007, initially operating as MANTRAS RESOURCES under a partnership structure, our journey evolved into the incorporation of a Private Limited Company known as "MANTRAS INNOVATION & SOLUTIONS PRIVATE LIMITED," with CIN No. U70200MH2023PTC411850. Our corporate office is located in Pune, Maharashtra, India.

Mantras Innovation & Solution Private Limited (MISPL), we specialize in offering Environmental Consultancy Services aimed at ensuring full compliance with environmental regulations and environmental issues. MISPL is a NABET Accredited company as a Category A with 12 sectors and ISO 9001:2015 certified Company.

Our team comprises seasoned professionals with over two decades of collective experience spanning various industries, including Environmental Consultancy, Manufacturing, and Engineering services.

Our Vision

At MISPL we are passionate about protecting our planet and creating a sustainable future. As an industry-leading environmental company, we offer comprehensive solutions to address environmental challenges and promote responsible practices in various sectors.

Our Mission

Our mission is to provide innovative and cost-effective environmental solutions tailored to the unique needs of our clients. We are committed to minimizing environmental impact, conserving natural resources, and driving positive change through our expertise, experience, and cutting-edge technologies.

Our expertise :

■ Environmental Impact Assessments (EIA):

Our team conducts thorough assessments to evaluate the potential impact of proposed projects on the environment, ensuring compliance with regulatory standards and promoting sustainable development.

■ Sustainability Consulting:

We work with organizations to develop and implement tailored sustainability strategies, helping them integrate environmentally friendly practices into their operations, reduce waste, and enhance overall efficiency.

■ Environmental Due Diligence:

Direct, independent, reliable and fact based assistance in understanding the issues faced in our project and business. Which are then dealt with, managed and resolved with appropriate solutions.

■ **Inversys**, our another major vertical for water & waste water products & services. We have installed 300 plus plants of WTP, UF, RO, DM, STP, ETP, ZLD plants, turnkey projects in 14 States across India.

■ Environmental Compliance:

We assist businesses in navigating the complex landscape of environmental regulations, providing guidance and support in achieving and maintaining compliance with local, regional, and international regulations.

■ Environmental Monitoring and Testing:

Our state-of-the-art equipment and expertise allow us to conduct comprehensive monitoring programs, analyzing air, water, soil quality, and noise levels to assess environmental conditions accurately.

■ Six Monthly Post EC Compliance:

As an accredited environmental consultant we provide post Environmental Clearance (EC) services to ensure compliance of statutory requirement and seamless success of the project.

■ CRZ Clearance:

We assist the clients for the CRZ guidelines published by MoEFCC. We conduct site visits, assessment studies, documentation for the Town planning authority, the Urban Development Department and Environmental Department.
